To : Will Nygard <[REDACTED]>

I created a separate mailing list [REDACTED] and subscribed [REDACTED] + all the intl India traders. Let me know if there are other people I should add.

This could be wrong but given how IP sensitive our trading is, I am hesitant to send to as large of a group as [REDACTED]. I want to keep a decent amount of IP in these recaps to receive feedback and keep people updated. I've tried to ensure the right people are on the [REDACTED] list, but let me know if you think there are key people/groups I am missing.

In general, it seems like [REDACTED]

[REDACTED], so it would make sense to get it in a visible recap

Is your concern that I am sending this to too many people, to too few, or maybe the quantity is right but this list has people that shouldn't really care about this trading?

I think I prefer this list to [REDACTED].
